As a junior lecturer based on English Literature Study Program, I am a dedicated and passionate educator who is committed to fostering a positive and engaging learning environment for my students. I hold a deep appreciation for the transformative power of education and strive to inspire my students to become critical thinkers and lifelong learners. My research interests are around translation study, language in economic, and cultural studies related to popular culture. I am constantly seeking ways to enhance my teaching skills and stay up-to-date with the latest pedagogical approaches and educational technologies. I embrace innovation and utilize technology as a tool to augment the learning experience and make concepts more accessible and engaging for my students. While I may be a junior lecturer, I bring enthusiasm, fresh perspectives, and a willingness to learn and grow alongside my students. I value open communication and collaboration with both students and colleagues, as I believe that a strong sense of community and shared learning experiences contribute to academic success. Overall, my goal as a junior lecturer is to ignite a love for learning within my students, empower them with knowledge and critical thinking skills, and help them realize their full potential. I am excited to embark on this journey as an educator and make a positive impact on the lives of my students.
