Nahrisa Rahmadhani, born in Medan on December 24, 2000, is a lecturer in the Agrotechnology Program, Faculty of Agriculture, Universitas Sumatera Utara. Her field of expertise is Plant Pathology, with a research focus on plant pathogenic bacteria, pathogen-plant interactions, and the development of environmentally friendly plant disease control strategies.

She completed her Bachelor's degree (S1) in Agrotechnology at the Faculty of Agriculture, Universitas Sumatera Utara, and went on to earn her Master's degree (S2) in Plant Pathology at Bogor Agricultural University. Her research on plant pathogenic bacteria has resulted in several scientific publications that reflect her dedication to understanding plant diseases, plant resistance to pathogen attacks, and the advancement of plant pathology.
