Reisya Ichwani, S.Si., M.Sc., Ph.D., is a lecturer in the Undergraduate Program in Mechanical Engineering at the Universitas Sumatera Utara with a Bachelor of Science in Chemistry from Universitas Sumatera Utara, a Master of Science in Material Science and Engineering from Worcester Polytechnic Institute, and a Ph.D in Mechanical and Materials Engineering from Worcester Polytechnic Institute. She has more than 6 years of research experience in the semiconductor field, particularly in thin-film device fabrication and semiconductor characterization. Reisya is known as a diligent, creative lecturer who has strong interpersonal communication skills with cross-disciplinary collaborators and is committed to contributing to the development of materials technology and Mechanical Engineering education at USU.

Publications

2026
Jurnal internasional bereputasi

Pressure engineering in perovskite solar cells: From lattice distortion to device stability

REISYA ICHWANI

2026
Jurnal internasional bereputasi

Crashworthiness of AA6060-T4 crash boxes at different drop heights

M. SABRI , REISYA ICHWANI , J. Adjah , M. Nasution , M.T.L. Gaol

2025
Jurnal internasional bereputasi

Effect of iron content and warm compaction temperature on microstructure evolution and characteristics of the Cu-Ni-xFe based alloys

SUPRIANTO , SUHERMAN , Fajar Pratama Maulana , SIGIT BUDI PRASETYO , REISYA ICHWANI , M. SABRI

2024
Jurnal internasional bereputasi

Interfacial Fracture of Perovskite Light Emitting Devices

REISYA ICHWANI , O. K. Oyewole , W. O. Soboyejo , J. Adjah , J. Cromwell

2023
Jurnal internasional bereputasi

Using machine learning for prediction of spray coated perovskite solar cells efficiency: From experimental to theoretical models

REISYA ICHWANI

Researches

2024
Penelitian Dana Lokal Perguruan Tinggi

Studi Antar Muka Material pada Perovskite Solar Cell
