Dr. dr. Sabri, M.Ked (Neurosurg), Sp.BS, Subsp. N-TB (K), FINSS, FINPS adalah dokter spesialis bedah saraf dan akademisi di Fakultas Kedokteran Universitas Sumatera Utara (FK USU) pada Program Studi Sp-1 Ilmu Bedah Saraf. Dalam praktik klinis, beliau juga berkiprah di lingkungan layanan bedah saraf rumah sakit rujukan di Sumatera Utara. Keilmuan dan layanan profesional beliau diperkuat oleh gelar FINSS (Fellow of Indonesian Neurospine Society) yang memberikan pendalaman kompetensi pada neurospine/bedah saraf tulang belakang, serta FINPS yang menegaskan fokus pada manajemen nyeri dan neuromodulasi dalam spektrum kasus neurospine. Beliau juga mendalami minimally invasive surgery terutama pada bidang tulang belakang baik dengan metode uniportal atau biportal dengan fokus utama waktu recovery yang lebih singkat dan risiko yang lebih rendah. Dalam bidang akademik dan riset, karya ilmiah beliau banyak menyoroti neurospine—mulai dari kelainan degeneratif dan kompresi saraf tulang belakang, kasus-kasus kompleks seperti kelainan kongenital maupun lesi kistik, hingga infeksi tulang belakang termasuk tuberkulosis yang sejalan dengan kompetensi Subsp. N-TB (K). Selain itu, beliau juga terlibat dalam kajian luaran klinis pada neurotrauma serta pengembangan riset eksperimental untuk memperkuat dasar ilmiah tata laksana kasus-kasus bedah saraf tulang belakang.
