

Exploring Medan: History, Culture, and Must-Visit Destinations

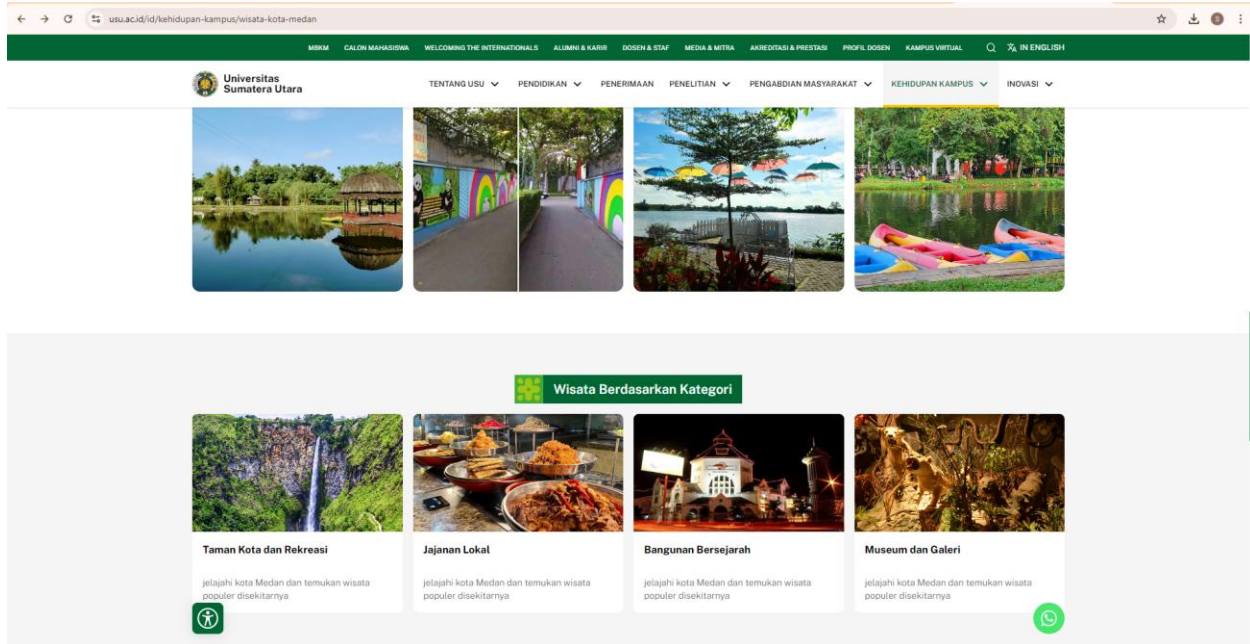

Medan, the third-largest city in Indonesia after Jakarta and Surabaya, is the capital of North Sumatra Province. It is also the largest city outside Java Island and the largest in Sumatra Island. As the main gateway to Indonesia's western region, Medan hosts Belawan Port and Kualanamu International Airport, the second-largest airport in Indonesia. Located on the edge of the Malacca Strait, Medan is a significant hub for trade, industry, and business in Indonesia.

The origins of Medan trace back to a village founded by Guru Patimpus between the Deli and Babura Rivers. The city later became the administrative center of the Deli Sultanate, with July 1, 1950, being declared its founding day. Bappenas also identifies Medan as one of the four major growth centers in Indonesia, with a diverse, multi-ethnic population. In addition to the Malays and Karo people, the city is home to various ethnic groups, including Javanese, Batak, Chinese, Minangkabau, and Indian communities.
